

## **USA POPS RW Scrambles Rules**

Teams are selected by a drawing of names by the judges. The drawing may be organized by the judges to balance the teams for safety and fairness according to the experience of the participants. The drawing will also assign exit order. The number of members on each team will be determined by the judges based on the number of competitors entered, the type of aircraft used, and any other considerations they deem appropriate. The standard team size is 4-way.

Each team will choose a team captain and a team name.

The judges will draw for the dives to be done, and the results will be posted after the team draw is announced.

The amount of working time will be decided by the judges according to the altitude of the jumps. Altitude and working time will be the same for all teams for each round.

Judging will be via air to air video.

Re-jumps will be at the discretion of the judges. Minor, incidental contact with the camera flyer shall not be considered grounds for a re-jump.

The scores for the rounds will be added together for each team. The team with the highest total score is the winner. In the event of a tie, the team with the highest score for a single round will prevail.
